ABHIJEET SACHAN

Software Engineer | Full Stack Developer
Email: abhijeetsachanwork@gmail.com | Phone: +91-8318328148 | GitHub | LinkedIn

Professional Summary

Software Engineer with 1.5+ years of professional experience building large-scale, full-stack web applications using React, Next.js, and Node.js. Hands-on experience developing and integrating REST APIs and microservices, real-time event-driven features, and cloud-backed services on AWS. Proficient in JavaScript, TypeScript, Python, and C++, with a strong foundation in data structures, algorithms, object-oriented programming, and software design principles. Experienced with relational and NoSQL databases (PostgreSQL, MySQL, MongoDB) and Git-based collaborative workflows including code reviews, testing, and debugging. Focused on scalable, reliable systems and clean, maintainable code.

Professional Experience

- **Software Engineer** Sep 2025 – Present
  Stack-IT *Remote, Noida*
  - Owned end-to-end frontend architecture of **Nestys**, a large-scale social commerce platform, across 7 modules including social feed, e-commerce, real-time chat, short video, wallet, and community opportunities.
  - Delivered production-grade UI in **React.js, Next.js, and TypeScript** (strict mode), applying clean architecture and single-responsibility component patterns for long-term scalability.
  - Reduced redundant network requests by **35%** through strategic caching and state management using **TanStack Query** and **Zustand**.
  - Built real-time messaging with **Socket.IO** — supporting text, media, audio/video calling, delivery and read receipts, with optimistic updates for a responsive user experience.
  - Integrated **AWS S3** for media uploads and **Stripe** and **Braintree (PayPal)** for in-app payments, isolating third-party dependencies behind wrapper modules for maintainability.
  - Collaborated with product and backend teams across the full development lifecycle — from system design and API integration to testing, debugging, and production delivery.

- **Associate Web Developer** Apr 2024 – Jul 2024
  Srstha Tech Solutions *Hyderabad, India*
  - Optimized web application performance using React.js, Node.js, and Express.js, achieving 40% faster load times and improved scalability for 500+ concurrent users.
  - Diagnosed and resolved 25+ critical backend issues through systematic debugging and performance analysis, reducing system downtime by 60%.

Technical Projects

- **Echoes and Edits - Blog Platform** | *React.js, Node.js, Express.js, MySQL, JWT* *Apr 2025*
  - A full-stack blogging platform with JWT authentication, role-based access control, and responsive design.
  - Engineered scalable REST API backend with Node.js, Express.js, and MySQL, handling 10,000+ posts with optimized query performance.

- **Virtuale - Video Conferencing Platform** | *Next.js, WebRTC, TypeScript* *Aug 2024*
  - Built a real-time video conferencing platform supporting 50+ participants, integrating WebRTC for peer-to-peer communication and Socket.io for real-time chat and signaling.
  - Implemented meeting scheduling, screen sharing, and personal rooms, using TypeScript for type safety.

Technical Skills

Programming Languages: JavaScript, TypeScript, Python, C++, SQL
Frontend Development: React.js, Next.js, Zustand, TanStack Query, Tailwind CSS.
Backend & APIs: Node.js, Express.js, FastAPI, REST APIs, Microservices, Socket.io (real-time / event-driven)
Databases: MySQL, PostgreSQL, MongoDB
Cloud & Tools: AWS (S3), Git, GitHub, Postman, VS Code
Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Software Design Principles

Certifications & Training

- **The Complete Web Development Bootcamp** - Dr. Angela Yu (Udemy)
- **Python for Data Science, AI & Development** - IBM (Coursera)

Education

- **Bachelor of Technology in Electronics and Communication Engineering** 2020 – 2024
  Manipal University Jaipur *Jaipur, India*
- CGPA: 8.3/10.0
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems
